

Broadlawns UnityPoint Psychiatry Residency

Broadlawns Medical Center and UnityPoint Health – Des Moines are pleased to offer a jointly-administered psychiatry residency program. Through the jointly-administered program, psychiatry residents garner experience with access to 112 inpatient psychiatric beds as well as outpatient and community-based patient volumes that exceed 100,000 annual visits. Broadlawns Medical Center and UnityPoint Health – Des Moines have been successfully collaborating in Graduate Medical Education since 1947. The two partnering organizations recognized an opportunity to further their educational collaboration by offering residency training for a much-needed medical specialty in Iowa. Broadlawns Medical Center and UnityPoint Health – Des Moines are committed to training the next generation of psychiatrists for the state of Iowa.
