

The Greer Psychiatry Residency Program is a 4-year ACGME accredited training program with 8 residents per year at the Center for Psychiatry on the Greer Memorial Hospital campus in Greer, South Carolina and affiliated with the University of South Carolina School of Medicine Greenville. We invite you to visit the website to learn about distinctives of our program which include a longitudinal curriculum which promotes continuity of care; intentional integration of psychiatry with other medical specialties; psychotherapy training in all four years; as well as a strong humanities component.
