

University of South Dakota Sanford School of Medicine

The USDSSOM Psychiatric Residency Training Program provides state of the art psychiatric services in the heart of the Midwest. With a unique mix of urban and rural experiences, we prepare residents to provide exceptional care in any demographic setting. As the leader in Psychiatric services in our area, we remain at the forefront of technologically advanced practice; offering full-service outpatient, inpatient, consult, child and adolescent, and tele-psychiatry opportunities to a growing and culturally-diverse population. We are dedicated to providing residents with a first-class training experience through a rigorous educational environment that is built on strong work ethic, compassion, and integrity: offering excellence in care with a healthy work-life balance.
