

## **Maimonides Medical Center**

The Psychiatry Residency Program at Maimonides offers a comprehensive and collaborative training experience in the heart of Brooklyn! Our trainees are at the forefront of providing compassionate, evidence-based care in a medical center known for its unparalleled diversity, strong emphasis on academic excellence, and robust clinical opportunities. Our graduates get all the exposure they need to succeed in any setting. We look to recruit residents who are resilient, come from diverse backgrounds, who have a track record of overcoming barriers, and have the potential to excel in teamwork and leadership. Resident and faculty wellness is a top priority. We strive to provide a supportive culture that models respect, compassion, and academic curiosity. We are determined to teach residents to provide care that meets the challenging needs of our patients and care delivery systems in alignment with that of the Medical Center.
