

Penn Highlands DuBois

Here at Penn Highlands our Psychiatry Residency Program is ACGME accredited and offers a wide variety of educational experiences. We offer specialized inpatient and outpatient programs for children and adolescents, adults and for the geriatric population. Exciting new educational experiences include neuromodulation are also in development. We see patients from a diverse population with varied diagnoses. In addition to our own scholarly activity within our hospital system, our Psychiatry Residency Program is supported by LECOMT, The Lake Erie Consortium for Osteopathic Medical Training, which provides access to educational modules, library resources, and board preparation tools. Penn Highlands is also HRS approved.
