

## **Icahn School of Medicine at Mount Sinai (Mount Sinai Hospital) Program**

Mount Sinai's psychiatry residency training program provides broad training to physicians in the field of psychiatry. We are located in an tertiary care academic teaching hospital in the heart of New York City and serve a wide range of patients. Our research opportunities are outstanding, offering excellent training in both clinical and basic research. We are also fortunate to have an outstanding clinical faculty and, as a New York based program, excellent training in a wide variety of psychotherapies. We pride ourselves our ability to individualize an educational program for each resident and our success in training future leaders in psychiatry.
