

Carilion - Virginia Tech Carilion Psychiatry Residency Program

We offer residents high-quality experiences in a variety of settings, including Carilion Roanoke Memorial Hospital, one of the largest hospitals in the state. Our residents also rotate at the Salem Veteran Affairs Medical Center and other community sites. We are known as a leader among psychiatry residency programs for our comprehensive training in all aspects of psychiatry. Our residents are extensively trained in inpatient, outpatient, consultative and community psychiatric care for adults, children and geriatric patients.
