

Lakeland Regional Health is an award-winning, tertiary level, multidisciplinary, not-for-profit health care system that has provided stellar health care to the population of Central Florida for over 100 years. Its mission to "Put People at the Heart of all We Do" has translated to a caring culture for team members built on employee wellness. LRH psychiatry residents will be trained by a diverse group of experienced faculty and will provide psychiatric care in our new state-of-the-art Behavioral Health and Wellness Center. Residents will train in multiple subspecialties of the field of psychiatry, including Child and Adolescent Psychiatry, Geriatric Psychiatry, Addiction Psychiatry, Consultation-Liaison Psychiatry, Emergency Psychiatry, Forensic Psychiatry and Community Psychiatry. Psychiatry residents will be integral members of teams in multiple settings (i.e., inpatient, outpatient, emergency, community, research etc.), and will be mentored to explore and lead initiatives in their niche areas! The psychiatry residency program at LRH has been designed so that all rotation sites are within a five-mile radius.
