

## **Case Western Reserve University MetroHealth**

The MetroHealth System (CWRU) has designed a psychiatry training program to recruit, train and develop a qualified, diverse, and culturally competent workforce to not only serve the psychiatric needs of the community but also to prepare residents for the future leadership in psychiatry. We are a public institution with a rich history of serving our community. MetroHealth's academic tradition attracts medical students, residents, and faculty from across the nation and the globe. We have a comprehensive curriculum and our residents get a balanced training in psychopharmacology and psychotherapy by our invested and diverse faculty.
