Diversity, Equity, Inclusion, and Anti-Racism Resources [this document]
<https://www.admsep.org/htmlly/2020/10/diversity-equity-and-inclusion-resources>

4. Accreditation Council for Graduate Medical Education (ACGME)
<https://www.acgme.org/What-We-Do/Diversity-Equity-and-Inclusion>

<https://www.acgme.org/what-we-do/diversity-equity-and-inclusion/department-of-diversity-equity-and-inclusion-updates/>

a. ACGME Common Program Requirements (CPR) (all Residency Training Programs of all specialties)
<https://acgme.org/Portals/0/PFAssets/ProgramRequirements/CPRResidency2020.pdf>

b. ACGME Common Program Requirements (CPR) (all Fellowship Training Programs of all specialties)
<https://acgme.org/Portals/0/PFAssets/ProgramRequirements/CPRFellowship2020.pdf>

The ACGME's [Common Program Requirements](#) address diversity, equity, and inclusion and expectations for Sponsoring Institutions and programs. Individual [Review Committees](#) review multiple data points provided by Sponsoring Institutions and programs annually to determine substantial compliance with all ACGME requirements including the following:

- Section I.C. Addresses recruitment and retention of a diverse and inclusive workforce.
- Requirement II.A.4.a).10. specifies the need for program directors to cultivate an environment in which residents and fellows can raise concerns and provide feedback without fear of intimidation or retaliation.
- Section V begins to address evaluation and asks programs to collect data on ultimate board certification rates of its graduates, with the intent of decreasing reliance on first time pass rates as a measure of excellence.
- Requirement VI.B.6. states that programs and Sponsoring Institutions must provide a professional, and respectful environment free from discrimination, harassment, mistreatment, abuse, or coercion.

1. * CPR on diversity and inclusion** (new, effective 7/1/19; renewed 7/1/22) in both documents:

“I.C. The program, in partnership with its Sponsoring Institution, must engage in practices that focus on mission-driven, ongoing, systematic recruitment and retention of a diverse and inclusive workforce of residents (if present), fellows, faculty members, senior administrative staff members, and other relevant members of its academic community. (Core)

Background and Intent: It is expected that the Sponsoring Institution has, and programs implement, policies and procedures related to recruitment and retention of minorities underrepresented in medicine and medical leadership in accordance with the Sponsoring Institution’s mission and aims. The program’s annual evaluation must include an assessment of the program’s efforts to recruit and retain a diverse workforce, as noted in V.C.1.c).(5).(c).”

2. * CPR on ACGME Competencies** [bolded key terms added]

a. Professionalism

“Residents must demonstrate competence in **respect and responsiveness to diverse patient populations**, including but not limited to diversity in gender, age, culture, race, religion, disabilities, national origin, socioeconomic status, and sexual orientation.”

b. Patient Care and Procedural Skills

“Background and Intent: Quality patient care is safe, effective, timely, efficient, **patient-centered, equitable, and designed to improve population health**, while reducing per capita costs. (See the Institute of Medicine [IOM]’s *Crossing the Quality Chasm: A New Health System for*

the 21st Century, 2001 and Berwick D, Nolan T, Whittington J. *The Triple Aim: care, cost, and quality*. *Health Affairs*. 2008; 27(3):759-769.)”

c. Medical Knowledge

“Residents must demonstrate knowledge of established and evolving **biomedical, clinical, epidemiological and social-behavioral sciences**, as well as the application of this knowledge to patient care.”

d. Interpersonal and Communication Skills

“Residents must demonstrate competence in communicating effectively with patients, families, and the public, as appropriate, across a **broad range of socioeconomic and cultural backgrounds**.”

e. Systems-based Practice

“Residents must demonstrate an awareness of and responsiveness to the larger context and system of health care, including the **social determinants of health**, as well as the ability to call effectively on other resources to provide optimal health care.”

c. Clinical Learning Environment Review (CLER)

<https://www.acgme.org/What-We-Do/Initiatives/Clinical-Learning-Environment-Review-CLER>

Resources and Documents

<https://www.acgme.org/What-We-Do/Initiatives/Clinical-Learning-Environment-Review-CLER/Resources-and-Documents>

Focus on “Health care quality (including health care disparities)” in these documents:

[National Report of Findings 2018 \(JGME 2018\)](#)

[Executive Summary – National Report of Findings 2018](#)

[CLER Pathways to Excellence Version 2.0](#)

CLER National Report of Findings 2021

“In general, clinical learning environments do not appear to engage all their residents and fellows in their organization’s efforts to design, evaluate, and improve patient safety and health care quality, including health care disparities.”

<https://www.acgme.org/globalassets/pdfs/cler/2021clernationalreportoffindings.pdf>

d. 2020 ACGME Strategic Plan Summary, 10/20 [now mentions diversity, inclusion, and equity]

<https://www.acgme.org/Portals/0/PFAssets/PublicationsPapers/Strategic%20Plan%20Summary.pdf?ver=2020-10-22-114251-953>

<https://www.acgme.org/what-we-do/diversity-equity-and-inclusion/ACGME-Equity-Matters/>

<https://www.ama-assn.org/education/improve-gme/william-mcdade-md-phd-discusses-health-equity-and-resident-education>

5. *** **Liaison Committee on Medical Education (LCME)** [bolded key terms added]

<https://lcme.org/publications/#Standards>

The LCME accredits medical education programs leading to the M.D. degree in the United States and Canada. Several LCME accreditation standards are relevant to cultural competence, disparities and diversity in a medical school setting.

Standard 3: Academic and Learning Environments

3.3 Diversity/Pipeline Programs and Partnerships

A medical school has effective policies and practices in place, and engages in **ongoing, systematic, and focused recruitment and retention** activities, to achieve **mission-appropriate diversity outcomes** among its **students, faculty, senior administrative staff**, and other relevant members of its academic community. These activities include the use of programs and/or partnerships aimed at achieving diversity among qualified applicants for medical school admission and the evaluation of program and partnership outcomes.

3.4 Anti-Discrimination Policy

A medical school has a policy in place to ensure that it does not discriminate on the basis of age, disability, gender identity, national origin, race, religion, sex, sexual orientation or any basis protected by federal law.

3.5 Learning Environment/Professionalism [Both this standard and one below could include issues related to diversity and inclusion, discrimination, racism, and bias.]

A medical school ensures that the learning environment of its medical education program is conducive to the ongoing development of explicit and appropriate professional behaviors in its medical students, faculty, and staff at all locations. The medical school and its clinical affiliates share the responsibility for periodic evaluation of the learning environment in order to identify positive and negative influences on the maintenance of professional standards, develop and conduct appropriate strategies to enhance positive and mitigate negative influences, and identify and promptly correct violations of professional standards.

3.6 Student Mistreatment

A medical school develops effective written policies that define mistreatment, has effective mechanisms in place for a prompt response to any complaints, and supports educational activities aimed at preventing mistreatment. Mechanisms for reporting mistreatment are understood by medical students, including visiting medical students, and ensure that any violations can be registered and investigated without fear of retaliation.

Standard 7: Curricular Content

7.1 Biomedical, Behavioral, Social Sciences

The faculty of a medical school ensure that the medical curriculum includes content from the biomedical, **behavioral, and socioeconomic sciences** to support medical students' mastery of contemporary medical science knowledge and concepts and the methods fundamental to applying them to the health of individuals and populations.

7.5 Societal Problems [This section could include the social determinants of health and mental health.]

The faculty of a medical school ensure that the medical curriculum includes instruction in the diagnosis, prevention, appropriate reporting, and treatment of the medical consequences of **common societal problems**.

7.6 Cultural Competence and Health Care Disparities

The faculty of a medical school ensure that the medical curriculum provides opportunities for medical students to learn to recognize and appropriately address **biases in themselves, in others, and in the health care delivery process**. The medical curriculum includes content regarding the following:

- The diverse manner in which people perceive health and illness and respond to various symptoms, diseases, and treatments
- The basic principles of **culturally competent health care**
- Recognition of the **impact of disparities in health care on all populations and potential methods to eliminate health care disparities**
- The knowledge, skills, and core professional attributes needed to provide effective care in a multidimensional and diverse society

6. American Psychiatric Association (APA)

a. * Diversity and Health Equity**

<https://www.psychiatry.org/psychiatrists/cultural-competency>

Section 1: Education: CME webinars, toolkits, fact sheets and other educational content specifically for diverse and vulnerable populations.

Section 2: Engagement Opportunities: APA components and caucuses, awards, resident/fellow fellowships, and networking opportunities aimed at supporting and increasing diversity within APA and psychiatry.

Section 3: Advocacy and News: Relevant press releases, position statements, and advocacy resources to help psychiatrists advocate for the needs of minority and underserved populations.

f. 11 Tips to Integrate Health Equity Content into Medical Education (key take home points)

- Give cultural context to case-based learning.
- Discuss how systemic racism and bias cause health disparities.
- Call attention to the demographics tables in research.
- Be inclusive.
- Differentiate facts from myths.

- Scrap stand-alone lectures on health equity.
- Factor in current events and popular culture.
- Promote diversity among faculty.
- Don't ask a single person to speak for their entire community.
- Ask for help, regardless of your level of expertise.
- Lean into the issue.

[The Conflict Campaign: Exploring Local Experiences of the Campaign to Ban “Critical Race Theory” in Public K12 Education in the U.S., 2020-2021](https://idea.gseis.ucla.edu/publications/the-conflict-campaign/) (1/22)

<https://idea.gseis.ucla.edu/publications/the-conflict-campaign/>

From the Executive Summary: "We found that at least 894 school districts, enrolling 17,743,850 students, or 35% of all K–12 students in the United States, have been impacted by local anti “CRT” efforts. Our survey and interviews demonstrate how such restriction efforts have been experienced inside schools as well as districts. We found that both state action and local activity have left many educators afraid to do their work."

[John Oliver on Critical Race Theory](#): In its season 9 premiere on Sunday 2/20/22, HBO’s Last Week Tonight with John Oliver did an excellent deep dive into critical race theory— honing in on what CRT is, what it isn’t, and why it’s being attacked.

<https://www.nimhd.nih.gov/programs/collab/phenx/index.html>

The PhenX Social Determinants of Health (SDOH) Assessments Collection, now available in the PhenX Toolkit, contains 19 new protocols which expand upon the previous SDOH collection to help measure upstream factors that shape

behaviors and health outcomes. This collection provides a common currency for studying social determinants of health across public health research studies. Researchers are encouraged to use this collection to examine the role of SDOH and the factors related to health inequities and enable effective interventions to reduce health disparities.

26. State of California mandated CME to include implicit bias content starting 1/22. Implicit bias is defined in AB 241 as “the attitudes or internalized stereotypes that affect our perceptions, actions, and decisions in an unconscious manner, exists, and often contributes to unequal treatment of people based on race, ethnicity, gender identity, sexual orientation, age, disability, and other characteristics.” AB 241 is designed to mitigate harmful racial and ethnic disparities that exist in the delivery of health care and help ensure that all patients receive fair treatment and quality health care. The bill requires organizations that accredit CME courses in California to develop standards for CME providers to follow.
