

## **UCF/HCA General Psychiatry Residency of Greater Orlando**

The UCF COM/HCA Healthcare GME Consortium Psychiatry Residency Program of Greater Orlando is an exciting program committed to providing excellent training in patient care, promoting diversity, equity and inclusion across the training spectrum, and encouraging lifelong scholarly work. Residents will do their clinical training at three main hospitals including Osceola Regional Medical Center, Orlando VA Medical Center and Nemours Children's Hospital. Multidisciplinary treatment team settings at Osceola Regional and Orlando VAMC will allow residents the opportunity to work with psychologists, social workers, nurses, pharmacists, medical students and other staff dedicated to patient care in addition to psychiatry supervisors.
