

East Tennessee State University Psychiatry Residency Program

The East Tennessee State University Psychiatry Residency program works with the VAMC and a private hospital to provide varied in & outpatient rotations/electives (e.g. ECT, Pharmacological Consultation to the University Student Counseling, Psychology, Nurse Practitioner clinics, Telepsychiatry, Sleep Med, Palliative Care, Pain Medicine, etc.) as well as a 2.5 year experience in Psychodynamic, Supportive, and Cognitive Behavioral Therapies. Year specific didactics, QI projects, Grand Rounds and national/regional conference presentations round out the learning experiences. Our close-knit resident group also enjoys many recreational activities including hiking, kayaking, and spelunking in beautiful Northeast Tennessee.
