

Located in Winston-Salem, NC, we are the largest academic medical center in Western NC. Wake Forest offers a thorough, balanced training program that creates a foundation for any type of psychiatric practice you wish to pursue or explore. Our faculty have spent decades honing their craft in various specialties and are dedicated to passing that knowledge on to the next generation of physicians. Our tailored program ensures residents receive the most comprehensive hands-on educational, research and clinical learning experiences. Our objective is for our residents to become well-rounded, expertly trained, board-certified psychiatrists who provide excellent patient care and engage in scholarship to move the field forwards. We will have 9 residents per class in 2023. Residents rotate throughout our academic medical center and the local VA.

Our faculty and staff are dedicated to helping residents in their academic as well as personal pursuits. We value work-life balance and strive to maintain open communication and a non-judgmental environment. In addition, our program places emphasis on the well-being of our residents through resident wellness days, monthly meetings with program leadership and chief residents. We are proud to say that many of our faculty trained in this program and stayed at Wake Forest because of the camaraderie and mutual support that is a key part of our culture.

Winston Salem is culturally diverse, affordable, with plenty to see, eat, and do including multitude of outdoor activities nearby. We still have all four seasons, but the winters are mild. The city has been transformed from a manufacturing town into a center of culture, innovation, technology, medicine and so much more. We are continually striving to improve the resident educational experience allowing you to enjoy a full and vibrant life during your time in Winston-Salem!!
