

## **Psychiatry Residency Spokane**

Psychiatry Residency Spokane is an academic community-based program sponsored by one of the largest hospitals in the Northwest, Providence Sacred Heart Medical Center. Our mission is to train residents and fellows as clinician educators with a deep commitment to the poor and vulnerable. We plan to recruit 4 incoming PGY1 residents beginning this fall and anticipate continuing our annual recruitment of a PGY2 resident. Our Child & Adolescent fellowship officially began in July 2021.

Our residents are trained in a variety of community clinical settings to prepare residents for success in whatever career they pursue, including fast tracking into C&A psychiatry. We emphasize psychotherapy training along with ambulatory psychiatry training in a fully integrated educational environment at Spokane Teaching Health Clinic (STHC), a freestanding co-located clinic with IM and FM residents. Our residents gain extensive experience in consultation-liaison and addiction psychiatry, including MAT in our Recovery clinic at STHC. We are actively planning the development of an addiction medicine consult service that is set to begin in 2022. Our residents develop valuable skills as clinician educators early on in residency while working regularly with UW, WSU, and PNWU medical students. Psychotherapy training starts early in PGY2 at STHC and QI begins in PGY1. Senior residents have completed electives in telepsychiatry, ECT, junior attending, House of Charity Homeless Shelter open access behavioral health clinic, cardiac transplant psychiatry clinic, Native Health, Gonzaga University Psychiatry clinic, Sleep medicine, Eastern State Hospital forensics unit, Frontier Behavioral Health crisis service, VA addiction group therapy, Juvenile detention C&A consultation, away elective at Bartlett Medical Center in Juneau, Alaska, and a variety of psychotherapy electives (ISTDP, ACT, DBT, Group, Harm Reduction, MI) to name a few. Please see our website for much more information about our program and growing resident and faculty family. We look forward to meeting you during this recruitment season!
