

AtlantiCare Regional Medical Center

AtlantiCare Regional Medical Center is an ACGME accredited Psychiatry Residency Training Program. We are dedicated to training residents, teaching medical students and building healthy communities together. We are committed to providing trainees with the highest quality graduate medical education training that will prepare you to become our next generation of board-certified Psychiatrists. Our residents come from diverse backgrounds to care for our community population and are passionate about learning, teaching and they have a wide variety interests.

The AtlantiCare Regional Medical Center is a community-based teaching hospital. The ARMC has a state of the art psychiatric inpatient unit. It's compliant with the highest level of patient safety and provides a comfortable healing space for our patients. The unit is equipped with a calming room, music room, art therapy room and our wonderful mental health staff, nurses, social workers and dedicated teaching attendings. Our outpatient continuity clinics are located a few blocks from our city campus and throughout our Mainland campus. Residents will have the opportunity to manage a wide variety of psychiatric illnesses from culturally diverse and socioeconomic patient populations.

Focus on Education

- All Psychiatric services have one to one supervision with our faculty.
- At ARMC we work together to ensure collaborative care. We have fully integrated disciplinary teams and supportive hospital leadership.
- Our weekly didactics are protected time and lead by our program director Brian Isaacson, MD, MBA who was awarded the Faculty Teaching Award from Cooper University Hospital and our outstanding teaching faculty.

Focus on our Community

- At our city campus the Psychiatric Intervention Program (PIP) is the only crisis response center providing screening for all of Atlantic County including children. Residents are always on-call with a dedicated attending. Our services range from child to adult partial programs.
- Program for Assertive Community Training (PACT)
- Programs of All-Inclusive Care for the Elderly (PACE). A Medicare and Medicaid program that helps people meet their health care needs in the community instead of going to a nursing home or other care facility.
- Urgent Care Psychiatry Services in a unique care model
