

Cleveland Clinic Akron General Psychiatry Residency Program

Cleveland Clinic Akron General serves as the southern regional hospital for the Cleveland Clinic and our program is affiliated with the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University (CCLCM) and Northeast Ohio Medical University (NEOMED). We serve as the primary medical student teaching site for Northeast Ohio Medical University (NEOMED), University of Toledo College of Medicine and the Ohio University Heritage College of Osteopathic Medicine (OUH-COM). Our program combines the very best of a busy community hospital with strong academic affiliations.

The Department of Psychiatry and Behavioral Sciences has been in existence since 1956. The department consists of:

- 2 acute care inpatient psychiatric units with 55 beds and approximately 2,000 admissions each year
- Consult Liaison and Emergency Psychiatry service that does 3,500 new evaluations per year
- Fully supervised Outpatient Resident Clinic with approximately 22,000 visits annually
- Chemical Dependency service that sees 1,000 outpatient and group visits per year and
- 2 intensive outpatient programs that sees over 1,000 per year

The Cleveland Clinic Akron General Psychiatry Residency Program provides you with an outstanding on-the-job training experience in a rural hospital setting, superb mentorship and individualized education plans that will lay the foundation for the rest of your career. We offer our residents a rewarding and enriching training life to enhance the potential of becoming a skilled psychiatrist.

Highlights of our residency program include:

- We are part of a world class healthcare system
- We have dedicated and experienced teaching faculty
- We have a comprehensive continuum of clinical care including inpatient, outpatient, consultation and liaison, emergency psychiatry, intensive outpatient programs and a chemical dependency program
- We provide an excellent blend of educational, clinical, research, leadership and advocacy training
- The trainees have the availability to work with the residents in family medicine, internal medicine, emergency medicine, obstetrics and gynecology, surgery and orthopedics training programs
- There is availability to interact with and teach medical students from multiple different medical schools
- We provide excellent work-life balance during residency training
- Akron is a safe and affordable area to live and raise a family
