

## **University of Washington Boise Residency Program**

Welcome to the University of Washington Boise Psychiatry Residency Program! We are a four-year, ACGME-accredited program through the University of Washington, located in the vibrant community of Boise, Idaho. Our mission is to train well-rounded psychiatrists to provide outstanding care to underserved communities.

Our faculty have expertise in all psychiatric subspecialties, including geriatrics, child and adolescent psychiatry, consultation/liaison psychiatry, forensic psychiatry, community psychiatry, and addiction medicine. Most of our graduates go on to practice in Idaho, working in inpatient, outpatient, consultative, correctional, and hybrid settings. We are also proud to retain many of our graduates as faculty; these are exceptional psychiatrists who will be your teachers if you join us for your training!

We are glad you are interested in our program; please look around our website to learn more about our history, mission, and community. The website also contains information on our rotational and didactic curricula as well as our faculty and residents. If the information you are looking for is not available, please reach out to us to learn more!
