

## **Lahey Clinic**

Our program promotes residents' professional growth by combining access to robust training sites, expert faculty, and tailored didactics, within a collaborative and stimulating learning environment.

Our core faculty in the Lahey Division of Psychiatry and Behavioral Medicine consists of an interdisciplinary group of academic clinicians with substantial experience educating and training medical students, psychiatry residents and fellows from Tufts University School of Medicine, UMass Chan Medical School, and Harvard Medical School. Many of our faculty members have received Excellence in Teaching awards.

Lahey Hospital & Medical Center (LHMC) is a wonderful place to work and to learn. LHMC is a tertiary care system and Level I trauma center. It offers more than 30 residency and fellowship programs and has been a respected teaching hospital in the Boston area for decades.

Lahey's culture is one of collaboration, collegiality, and effective communication. It follows the clinic model, with the goal of taking care of all patients' needs under one roof. Lahey believes in a just culture and a culture of safety to promote exceptional patient care.

The Lahey Psychiatry Residency Program takes advantage of the rich clinical opportunities in Eastern Massachusetts and our experienced faculty to provide a comprehensive and stimulating training experience. We take four residents per year, and participate from ERAS and the Match.

**Mission:** Our program's mission is to mentor and educate future leaders of psychiatry who are expert and compassionate academic clinicians, equipped with the competencies, skills, and intent to provide superb psychiatric care to our communities and advance a more effective healthcare system.

**Location:** We are located in Burlington, Massachusetts, 17 miles northwest of Boston. We are in a perfect location, surrounded by history-rich leafy suburbs and the wonderful cultural and academic opportunities of the Boston area. There are plenty of opportunities for enjoying ocean beaches, hiking, and skiing, all within easy reach.
