

University of Chicago - Endeavor Health (Northshore)

Thank you for your interest in the General Psychiatry Residency Program at Endeavor Health. Our program aims to provide premier psychiatric training in a leading healthcare setting. Located at our NorthShore and Swedish Hospitals in Evanston and Chicago, IL, we offer a comprehensive framework so that our residents emerge as competent and compassionate psychiatrists.

Academic affiliation: Our program is sponsored by our academic partner, the University of Chicago Pritzker School of Medicine, in which you'll be immersed in a mix of clinical experiences and career-building learning opportunities.

Wide exposure to sub-specialties: You'll benefit from an all-encompassing curriculum across Child & Adolescent Psychiatry, Psychosomatic Medicine, Geriatric Psychiatry, Addiction Psychiatry and Emergency Psychiatry.

Renowned faculty: Our dedicated faculty are recognized for their commitment to clinical quality, patient safety, and educational excellence, providing a supportive and dynamic environment for the next generation of psychiatrists.

Resident-focused: At the core of our residency experience is a profound commitment to resident well-being. Recognizing the intense demands of psychiatric training and clinical practice, we proactively support residents through various wellness initiatives.

Innovative opportunities: The Neuromodulation service, providing cutting-edge treatments like electro-convulsive therapy (ECT), and Deep Transcranial Magnetic Stimulation (dTMS), is a highlight for those interested in advanced therapeutic techniques.
