

Cleveland Clinic

Introduction

The Adult Psychiatry Residency at Cleveland Clinic offers a unique training opportunity at one of the most renowned medical centers in the world. Cleveland Clinic is a trusted healthcare leader. We're recognized in the U.S. and through the world for our expertise and care.

Cleveland Clinic has been internationally recognized as a leader in the development of innovative solutions to the changing face of healthcare. At the October 3, 2012 Presidential debate, President Barack Obama said of Cleveland Clinic: "At the Cleveland Clinic, one of the best healthcare systems in the world, they actually provide great care cheaper than average. And the reason they do is because they do some smart things."

The Department of Psychiatry and Psychology operates within the framework of the Neurological Institute, a multidisciplinary group of more than 300 medical, surgical and research specialists dedicated to the treatment of patients with neurological and psychiatric disorders. The Neurological Institute offers a disease-specific, patient focused approach to care with close collaboration between Psychiatry, Psychology, Neurology, Neurosurgery and Neuroradiology.

Program Highlights

Expert Faculty who consistently operate with an approachable, open-door policy.
Rigorous training in both Biological Psychiatry and Psychotherapy. Specialty training in Neuropsychiatry (including epilepsy, movement disorders, multiple sclerosis).
Psychodynamic Psychotherapy training led by the Cleveland Psychoanalytic Center.
Comprehensive didactic curriculum with protected time away from clinical duties.
Flexible "Longitudinal" Schedule in PGY3 and PGY4 years – each is unique, designed by the resident.

Opportunities for institution-funded travel to national meetings to present scholarly work/research. Diversity of faculty, resident group, and patient population. No mandatory call or weekend duties for 3rd and 4th year residents.
