

## **Rutgers Health Robert Wood Johnson Medical School**

Welcome to the Child and Adolescent Psychiatry Fellowship at Rutgers Health Robert Wood Johnson Medical School!

Established in 1973, our program has a long-standing commitment to training compassionate, skilled psychiatrists dedicated to the mental health and well-being of children, adolescents, and their families.

This two-year, ACGME-accredited fellowship offers a well-rounded and rigorous clinical and educational experience in a supportive, collaborative environment. Based in Piscataway, New Jersey—conveniently located between New York City and Philadelphia—our fellows benefit from access to diverse patient populations and a variety of unique training settings.

Our first-year curriculum includes distinctive rotations in an inpatient eating disorders unit and a juvenile detention center. In the second year, fellows gain valuable experience in school-based psychiatry programs and residential treatment settings.

Applicants must have completed their PGY-3 year in General Psychiatry and passed USMLE Step 3 prior to entry. We sponsor J-1 visas.

We participate in the NRMP Match, and applications are accepted through ERAS. The application deadline is August 31st each year.
