

American Association of Directors of Psychiatric Residency Training

Biosketch

Ulrick Vieux, DO, MS

AADPRT Position: Chair, Justice, Equity, Diversity & Inclusion Committee (J.E.D.I.)

Dedicated and empathetic medical director and psychiatrist with deep expertise in behavioral and youth mental health, leading world-class healthcare systems in holistic treatments and patient solutions. Spearhead residency programs and education with tenured knowledge and practical business skills to mentor high-level graduate physicians, fortifying medical communities and advancing national mental health directives. Integrate proficiencies in nutrition, health policies, and resident physician development as comprehensive healthcare leader to provide services for optimal health. Originate and foster mental health initiatives within hospital care system to promote physician wellbeing and reduce pervasive industry burnout. Pioneer unconventional solutions and educate medical staff on simple interventions within child and adolescent therapies, creating opportunities for young patients to remain home instead of institutionalized. Allocate funding from awarded grants to implement modern technologies in telepsychiatry and virtual reality to enhance lives of patients and ensure access to critical mental health services.
