Poster Preparation Tips:

- Lettering should be at least 3/8" in height, in bold, clean type. Fonts should be at least 14 points.
- Block coloring adds emphasis and clarity. Captions should be brief and labels few, but clear. Avoid unnecessary details. Indicate (by numbers, letters, or arrows) a sequence for studying your material.
- Your poster should be self-explanatory so poster viewers can understand your poster 'story' if you're not present.
