

## **Lehigh Valley Health Network**

Lehigh Valley Health Network's overall mission is to heal, comfort, and care for the people of our community by providing advanced and compassionate health care of superior quality and value supported by education and clinical research. In line with our sponsoring institution's mission, the psychiatry residency's mission is to provide our residents with a balanced and comprehensive experience so that they can provide advanced and compassionate psychiatric care to our community supported by education and clinical research. What makes LVHN's psychiatry program truly unique is that it provides the perfect combination of academic resources with the intimacy of a small community program. This combination, in addition to its comprehensive psychiatric continuum of care, makes it the ideal setting to train.
