

Additional Guidance on 2021 Recruitment

Thank you to members who have asked about interviews and second visits as part of this year's recruitment season. AADPRT does not want to be more restrictive than the guidelines already posted by the NRMP or the AAMC. We endorse the following:

- All interviews should be virtual as also recommended by Coalition for Physician Accountability on August 24, 2021 - [Download \(aamc.org\)](https://www.aamc.org)
- AADPRT recommends the following as best practice guidelines:
 - Attendance at second look events should not be taken into consideration when rating and ranking applicants.
 - Second looks are not mandatory for programs to organize, nor encouraged per se. However, some programs historically hosted them and the above guideline would align best with post-interview communication NRMP requirements.
